

## **Topics---Runion Meeting---February 10, 2010**

1. Park—snow on Park path and land from Stuyvesant—cars parked on Park land—dumpsters on Park land--boundary needs to be marked clearly---plantings of trees and bushes around the park path--  
Stuyvesant use of land without payment—bridge—gazebo—fountain
2. Street Trees—when the Corridor study was being done you offered to pay for street trees in McKownville—is that offer still good?
3. Western Avenue sidewalks—when will the remaining sections be done
4. 1445 Western hole in the sidewalk—when will it be fixed
5. Storm sewer study—when will the report be ready for review
6. Flushing hydrants—a proposal--use that wasted water to send into storm drains and then look to see which down stream drains are not running so that those sections can be inspected more closely and “snaked”.
7. McKownville Zoning report—when will it be acted upon
8. McKownville Signs—entering McKownville—six signs—two ends of Western, Fuller, Northway, Schoolhouse and Monroe/Woodscape Drive
9. Nano flooding
10. Parking signs—correct the English
11. Path from the McKownville Park to Six Mile waterworks reservoir need be created and marked
